

Committed to Improving the State of the **FEW**

Goal achieved: **the FEW** who gain access to the extreme security **“Closed Forum”** have never been so rich/powerful. But material wealth does not make you happy - you can see that in those who rush past us.

DIALOGUE is written in capital letters - but there is a problem with implementation, e.g. if you have a different point of view. People like **Bourla, Tedros, v.d. Leyen, Lagarde, Hildebrand, Walder, Zwinggi** and **Schwab** are fleeing from free journalists. “HumanKind” - author **Rutger Bregman** put it in a nutshell in 2019: **“The WEF is like a firefighters conference at which you are NOT allowed to talk about water.”** Since I've been talking up alternatives to **the FEW** for 20 years, **it's crystal clear that THEY don't want to change the sick \$ystem: Sovereign money, micro-taxes, free media, fundamental rights, Gross National Happiness, peace talks, adherence to the UN ban on the use of force - also for NATO, environmental charges on instruments of war and murder, direct democracy etc.** are TABU.

Philanthropists like the unelected **Bill Gates** sell us their totalitarian measures as “improvements” with no alternative, so that they can continue to expand their 5-fold greed agenda (**diseases, wars, climate, disasters, credits**). Propaganda, distraction and fear campaigns lead to “emergency law”, which undermines constitutions. Digital inclusion and CBDCs shall implement **„Absolute Control“** (**Augustin Carstens, BIS**). Huge assets of **the FEW** require mountains of debt disguised as “special assets”. Early sexualization and LGBTQI+ are declared “woke” **from above** and are supposed to cloud any remaining common sense.

← **People who criticize WEF narratives are not (or no longer) invited.**

In 2019, **Rutger Bregman** addressed WEF hypocrisies such as tax evasion, private jets and “philanthropy” and was no longer invited.

Greta Thunberg (who criticized NATO) and **Tomáš Sedláček** (who criticized the compulsion to GDP-growth and compound interest) experienced the same. Try to find the **OF** podium with **Sedláček** from 2012 or the **OF** podium with Prof. **Joe Stiglitz** 2016 (criticized GDP measurement and Iraq war): **Why does the WEF have to censor itself?**

The WEF censors its own events: «The biggest concern is not wars or the climate, but disinformation.» (**Ursula v.d. Leyen** WEF 2024)

The **“Open Forum”** was strategically founded in 2003:

WE should preferably not notice that WE are to be further exploited. In the beginning, aid organizations, churches and even people like you and me were able to participate in the **OF**: back then, the topics and the panels were reasonably balanced. Today, the **OF** is 100% in the hands of the WEF propaganda department. Former critical **OF** panels are censored by the WEF. **You will look in vain for relevant topics at the OF:**

Wealth EXTREMISM ==► Hunger (has doubled!!! since the Corona-Event 201 in 2019); NATO murder industry; the lost Ukraine war; the genocide in Gaza; expropriation e.g. through fires or through CO2 narratives; UN dis-empowerment through “Strategic Partnership” with the WEF; reappraisal of the WEF-sponsored Event 201 and the Nord Stream terror attack on Europe...

The **OF** advertises itself as “barrier-free”, but screens visitors to the core and thus prevents access for critical minds. The **OF** writes about controversial, **critical DIALOGUE** with the population: anyone who visits the **OF** may then understand that **Dölf Ogi** was underplaying things when he said: **“The OF is there to distract from problems.”**

We penetrate cabinets

← **THAT** was particularly embarrassing for the UN in 2019:

Secret (!!!) joint strategic “partnership” of WEF and UN leads to the WEF telling the impoverished and thus dependent UN h o w to implement the 2030 Agenda.

The fact that the WEF has **ZERO** interest in UN priorities 1+2 (zero poverty and zero hunger) can be seen from the **OF** program, among other things.

Al Gore (Jointly responsible for the use of depleted uranium ammunition in the illegal war against Serbia)
2009: «The Arctic could be ice-free by 2014!» ← F A K E !

The Paris Agreement of 2015 excludes war/military of all things!!!

The best protection of **environment / NATURE** would be the enforcement of correspondingly huge destruction charges (polluter pays principle) on war and armaments.

PEACE would be immediately profitable...

Whether **the FEW** will ever understand these simple ethical thoughts -

- **also depends on ALL OF US...**
